ARDMORE, THURSDAY, JUNE 20.

NOTICE TO THE PUBLIC.
Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the ARDMOREITE will be gladly corrected upon its being brought to the attention of the publisher.

When the weather is hot and sticky
And the herbage dried and dead,
How we long for Bore in breezes,
And the coolness long since fled;
And we'd give up joys of drinking
In the tavern in the town,
Could we loiter about at evening
In a Mother Hubbard gown.

The benefit of a street sprinkler must be felt to be appreciated.

SALMON pink is the popular color for shirt waists. Quite lobster, you know.

SIR GEORGE WILLIAMS, founder of the Y. M. C. A., is 80 years old. He should by all means live forever.

KITCHENER reports that he has again licked DeWet and then run away to keep his men from getting the worst of it.

We don't care how soon the city disposes of her old fire engine, just so she gives us a bounteous water supply from some ample source.

ENGLAND is said to contain a million more women than men. Can this be the result of the war in South Africa and elsewhere.

The Houston Post aptly says: If Sampson is entitled to a place on the medal so are we, but we don't care to be on it with him.

AN item from Beaumont says several wells are near the oil. We have heard a rumor also that several are not quite near enough.

MORE business houses are called for, we thought we had a surplus, but new comers cannot find a location. That's bad.

A MISSOURI editor accuses our supreme court justices of loose habits. He says: "They are eminent guys in mother Hubbard gowns."

We have no way of telling, but expect the story to be true that Adam was the first man to grow nervous about the "eve" of his wedding day.

A POPULIST contemporary proves that Mark Hanna outranks President McKinley by citing the fact that he is now a colonel while McKinley is only a major.

WHEN at home among their constituents Senator Cockrell of Missouri smokes a corncob pipe and Senator Daniels of Virginia sits on a store box in front of a grocery and whittles.

THEY have erected a new drink in Kansas, it is composed of hard cider, alcohol and water. It is said that one glass gets a man ready for a frolic, two for a fight and three for an undertaker.

AFTER next month there will be no revenue on sleeping car tickets and cireuses, the reduction in the beer tax also goes into effect. All this in consideration of general comfort, amusement and luxury.

THE COTTON CROP.

Leading Buyer Says It Will Be Larger this Year.

Oklahoma City, June 19.—Robert Irby, the cotton buyer, when asked in regard to the cotton crop of this year, said:

"I think that the crop this year will be better even than it was last year. There is a great increase in the acreage because of the failure of oats and the farmers are using their oat land for cotton. Plants are as fine as I ever saw and every indication is for a larger crop than Oklahoma has ever before produced. In the Indian Territory the conditions are as good as they are here. Cotton will not command the price this year that it did last, in my opinion, but the prices will range from six to seven cents and there is a large margin for the planters in this figure."

Don't fail to see W. H. Rogers when you want to sell your household goods for he pays highest cash prices for second hand goods of all description, on south side Main street next door to J. B. Mansfield, don't forget the place. m28 d w l m

Alarmed at Mormonism.

New York, June 19.—The conversion to Mormonism of Mrs. Thomas H. Blair, and Mrs. Elizabeth Dickinson, formerly active church workers and officers of the local Christian Endeavor union here, has thoroughly aroused the members of the several religious communities of the Bronx.

The two women repudiate the idea that they believe in polygamy. A concerted effort, it was said today, would be made to counteract these efforts of the emissaries of the Mormons. Meetings will be held in the several districts and the churches will be called upon to aid in the work.

Must Wait Indians Pleasure.

Washington, D. C., June 19.—Gov. Jenkins of Oklahoma was at the interior department today and asked for maps of the Kiowa lands in Oklahoma which are soon to be opened, with a view to making the state selections for school land and other purposes, as allowed by law. Commissioner of Indian Affairs Jones declined to permit the selections by the state in advance of the Indian selections.

Gov. Jenkins later sought authority from Secretary Hitchcock, but the latter gave no definite answer.

In answer to a question recently advanced to one of our exchanges, "Please tell where the expression 'half shot' originated as applied to one moderately intoxicated." A reply was given by a simple reference to murder and suicide statistics.

CAPITALISTS who will come to the Kiowa and Comanche opening with intention and cash to gobble up all the choice lots in the country seat towns for speculative purposes, are respectfully referred to section I of the act throwing the reservations open to settlement, and which reads, in part as follows: "Provided that no person shall purchase more than one business and residence lot."

THE caution law will be repealed at the next session of congress. The intervening time during which the law is in effect will illustrate the clumsy and impractical workings of it. The army and all the attaches of the army have declared against it. Officers condemn it as a measure injurious to discipline, and the general public considers it inharmonious to the broad plan of personal rights upon which this government is based.

Federal Court.

One turn of the hand of the strong arm of the federal court can smash prices more effectively than any other cause. This same cause has reduced the price on every article in the Sig Simon & Bro. stock just one half. The sale is now on. Nothing reserved. Do not delay or you will be disappointed.

SWEARS FALSELY

Negroes Life is Almost Sacrificed by Lie.

Little Rock, Ark., June 19.—A special from Camden, Ark., says:

Tom Watson, who with his wife, swore that the negro, Will Bussey, had committed an assault on Mrs. Watson, was taken out by a committee of citizens in Camden last night, and given 500 lashes. The affidavit of Watson and his wife was the means of Bussey being sentenced to hang the latter part of this month, but about three weeks ago, Mrs. Watson made a written statement confessing that she swore falsely against Bussey, and on learning this Governor Davis suspended the negro's sentence.

The confession so incensed the citizens that they decided to punish Watson whose wife swore that she was compelled by him to testify against the negro. At the conclusion of the lashing Watson was placed on a train going south and given instructions not to stop in Arkansas.

There was a time when to get the up to date cloth, the late style and the proper fit in a suit, you had to go to a tailor. Not so now.
